

Higher

Mali Music

Got saved, been saved
Too saved, been praisin and
Livin for me for a long long time
Workin hard stayin on that grind that's right
Sayin u wanna be avaylable
Touchin lives and blessin souls
Never been ashamed of that ole gospel
Holdin on and ya show nuff wanna let go
But there's a little something I've noticed
I held my tongue so you can stay focused but
It's been a while since u called my name
Or even prayed like u used to in the good ole days
Yea I see u shining like a star
But I think you've gotten comfortable with where u are
So much I wanna show ya
So much I have for ya.
So come up a little higher, higher, higher, higher, high... (higher) is where I wanna take ya
(further) is where I want u to go
(wider) every city every nation
(I) I really love u so
But u gotta go deeper
Gotta increase the word ya know
So I can show a little more
So u can preach the gospel
Eyes have not seen,
Don't nobody know
What I have in store for u
But to fly a little higher
You gotta let your wing span grow
Just desire and want me
Keep your spirit man wanting
Don't lose your zeal
Stay hungry
Just put your trust in me
I've got everything that u need
Hope you're not afraid of heights
If you are then you'll be alright
Don't close your eyes
Spread your wings and fly
Get comfortable cuz this is your life
High in the sky with me, Come on and fly with me
As we go high...as we go high... high.ohhh high...As we go high... as we go high... ohhh high...

as we go high.as we go high.
