

Still

Matt Nathanson

i remeber hearts that beat
yeah yeah
i remember you and me
yeah oh yeah
tangled in hotel sheets
you wore me out
you wore me out
i remember honey lips
and words so true
i remember non-stop earthquake dreams of you
coming on fast like good dreams do
all night long
i still can feel you kiss me love
still can see your brown skin shining (shining)
still can feel you kiss me love
come on and drive me wild (wild)
and you move like water
yeah
and you broke like waves
i never been deeper so far gone
your sister in the next room with the television on
still can feel you kiss me love
still can see you brown skin shining (shining)
still can feel you kiss me love
come on and drive me wild
come on and drive me wild
come on and drive me wild
i remember hearts that beat
yeah
i remember you and me
tangled in hotel sheets (for hours)
i still can feel you kiss me love
still can see your brown skin shining (shining)
still can feel you kiss me love
come on and drive me wild
i still can feel you kiss me love
still can see your eyes like diamonds (diamonds)
memories are strong enough
to come on and drive me wild
come on and drive me wild
