

# Introspective

## Oliver Tree

There it was, so introspective  
I don't need things to get messy  
This is overcomplicated  
I guess I miscalculated  
I don't think that I can hold it  
That's some overrated bullshit  
Shut your fucking mouth up, it's fine  
What a giant waste of my time

I don't wanna talk about it all again, it was  
A better time and then it's just because  
I guess I meant it, of it, upward now  
A minute now, I still can't come down  
Some things we just don't talk about

There it was, so introspective  
I don't need things to get messy  
This is overcomplicated  
I guess I miscalculated  
I don't think that I can hold it  
That's some overrated bullshit  
Shut your fucking mouth up, it's fine  
What a giant waste of my time

Would you ever change this?  
Could you ever take control of yourself?  
Can somebody explain this?  
Stop being so full of yourself

Guess I was around that though  
You didn't make a sound about those  
I think I'm burning out this time around  
I guess I really meant it  
Guess I was around that though  
You didn't make a sound about those  
Things I guess I made a big deal  
It's in my head, head

There it was, so introspective  
I don't need things to get messy  
This is overcomplicated  
I guess I miscalculated

I don't think that I can hold it  
That's some overrated bullshit  
Shut your fucking mouth up, it's fine  
What a giant waste of my time
