

# Jupiter

## Gallant

[Verse 1]

Diamonds on a silver platter weren't enough...  
And you thought about each cigarettes you burned for love...

[?Pre-Chorus]

So many others tried to crack your heart  
Weak defenses are the only things you've got

[?Chorus]?

And I was blaming you– an ego so inflated  
And red infatuation so strong  
Decades overdue...  
Regretting all the patience  
I'm sorry that I waited too long  
Sorry that I waited too long  
Sorry that I waited too long

[Verse 2]

So if Jupiter is finally fading out this time  
Let the fairy-tales we wrote about go black and white...

[Pre-Chorus]?

So many others tried to crack your heart  
Weak defenses are the only things you've got

[?Chorus]

So I was blaming you– an ego so inflated  
And red infatuation so strong  
Decades overdue...  
Regretting all the patience  
I'm sorry that I waited too long

[Bridge]

Sorry that I waited too long  
Too long, too long, too long, too long, too long  
Sorry that I waited too long  
Too long, too long, too long, too long, too long  
Sorry that I waited too long  
Too long, too long, too long, too long, too long  
Sorry that I waited too long

Too long, too long  
Sorry that I, sorry, sorry that, babe

[Outro]  
Ego so inflated  
Red infatuation  
Sorry, sorry  
Regretting all the patience  
Sorry that I waited too long  
Sorry baby, so long  
Sorry that I waited, sorry that I waited too long  
Sorry that I waited too long, babe  
Sorry that I waited too long, babe
