

# Well Thought out Twinkles

## Silversun Pickups

Now what was that scar situated from afar  
And what was that light integrated in your mind  
And what have you done it's too early for everyone  
Just wait for that sign spilling over and passed in time Come join in the last hurrah with open  
sores and open jaw  
Find one last flaw and keep it safe and free from harm  
And what have you done it's too early for everyone  
Just smile go inside come and see there is no sign Now here we are revisiting  
A time a place a whole industry well we  
Promise we'll be leaving soon  
We share apocalyptic views  
How comforting that we see them  
Who are we to promise we'll be leaving shortly  
Come join in the last hurrah with open sores and open jaw  
And what was that light integrated in your mind  
And what have you done it's too early for everyone  
Just wait for that sign spilling over and over and over and over  
Over and over and over and over  
Over and over and over and over  
Over and over and over and over and over and over...
