

Suntan City

Luke Bryan

[Verse 1]

(It's 'bout that time a year again!)
It was bumper to bumper when I hit that county
So I stopped and let the top down
Speakers where a bumping
Little hip-hop something
I was stirring up a coke and crown
Didn't even check in the room
We went straight for the beach
Didn't even give the ice a chance to melt
Now I'm scouting my spot
Where we were going to rock
With the biggest buzz I ever felt

[Chorus]

Now I'm sitting pretty in Suntan City
Got the best view in the world
Spending my days catching these rays
Watching coconut covered girls

[Verse 2]

They keep strolling by
And they keep rolling in
Like the waves on the sand
Yea, I'm sitting pretty in Suntan City
With a cold one in my hand
(Who!)
Hey there cutie with a Kentucky coozie
Have you ever hung with a Georgia boy?
And why don't you and your friends
Ease on over here and chug a beer with Miss Illinois?

[Chorus]

Yea I'm sitting pretty in Suntan City
Got the best view in the world
Spending my days catching' these rays
Watching coconut covered girls

[Verse 3]

They keep strolling by

And they keep rolling in
Like the waves on the sand
Yea, I'm sitting pretty in Suntan City
With a cold one in my hand

[Bridge]

I got to buddy who blew all his money
And he had to stay his broke-ass home
He's been going crazy, blowing up my phone
Wanting to know what's going on

[Chorus]

I tell him I'm sitting pretty in Suntan City
Got the best view in the world
Spending my days catching these rays
Watching coconut covered girls

[Verse 4]

And they keep strolling by
And they keep rolling in
Like the waves on the sand
Yea, I'm sitting pretty in Suntan City
With a cold one in my hand
(Yeah!)

[Outro]

Sitting pretty, right here in Suntan City
