Let You Go (feat. Ember Island)

Illenium

On the road through the dark night
You're on your own with no one to hear you
Going fast but it's alright
You're on your own with nothing to hold you back
And now you driven past the red light
Behind your shades all the colours seem faded
And now you're moving at the speed of light
I'll lead you home tonightWhen you're tired of the dark nights
And need someone to hold
I'll be your fire in the cold rain
I'm never gonna let you go
I'm never gonna let you go
When you're tired of the dark nights
And need someone to hold
I'll be your fire in the cold rain
I'm never gonna let you go
I'm never gonna let you go
When you're tired of the dark nights
And need someone to hold
I'll be your fire in the cold rain
I'm never gonna let you go
I'm never gonna let you go
I'm never gonna let you go
