

Amaryllis

Shinedown

[Verse 1]

In a while now, I will feel better
I'll face the weather before me
In a while now, I'll race the irony
And buy back each word of my eulogy
All the uninvited tragedies
Step outside

[Pre-Chorus 1]

Ask yourself now where would you be without
Days like this
When you finally collide
With the moment you can't forget?

[Chorus]

So do I remind you of
Someone you never met, a lonely silhouette?
And do I remind you of
Somewhere you wanna be, so far out of reach?
Oh-oh, I wish you'd open up for me
'Cause I wanna know you
Amaryllis
Bloom

[Verse 2]

Stay a while now, undress your colors
'Cause they're like no others, I've ever seen
I could get used to your company
Step inside

[Pre-Chorus 2]

Ask yourself now where would you be without
Days like this
When you finally collide
With the motions you can't resist?

[Chorus]

So do I remind you of
Someone you never met, a lonely silhouette?
And do I remind you of

Somewhere you wanna be, so far out of reach?
Oh-oh, I wish you'd open up for me
'Cause I wanna know you
Amaryllis

[Bridge]
In a while now I will feel better
I will be better

[Chorus]
So do I remind you of
Someone you never met, a lonely silhouette?
And do I remind you of
Somewhere you wanna be, so far out of reach?
Oh-oh, I wish you'd open up for me
'Cause I wanna know you

[Outro]
Amaryllis
Bloom
Amaryllis
Bloom
