

# Explore

Kris Wu

Sorry for the noise  
Cause you can hear us loud and clear  
And I know you'll explore with me  
Sometimes you got to take a pillKnocking at my door  
Can we turn it down - no no  
Can't distract this flow  
Waking at the scene  
Whenever you with me  
Oh - you sound amazingGot you singing so loud  
Play my speakers  
Making love right now  
We can turn it up, we can turn it up  
Got the room like  
Boom Boom Pow  
In Ibiza  
And we going up  
Feeling [?]  
Let me know wassup  
They just like it though  
Bumping like a truck  
Give you what you need  
Ain't that what you want?Got you singing so loud  
Got the room like  
Boom Boom PowJust keep it quiet in the suites  
We gon' turn it up before we leave  
We gon' cause a scene if they try and kick us out  
We don't pay if they don't like the noise  
So they  
Knocking at my door  
Can we turn it down - no no  
Can't distract this flow  
Yeah Yeah Yeah  
Waking at the scene  
Whenever you with me  
Oh - you sound amazingGot you singing so loud  
Play my speakers  
Making love right now  
We can turn it up, we can turn it up  
Got the room like  
Boom Boom PowIn Ibiza  
And we going up  
Feeling [?]

Let me know wassup  
They just like it though  
Bumping like a truck  
Give you what you need  
Ain't got what you wantGot you singing so loud  
Got the room like  
Boom Boom PowAnd we going up  
Let me know wassup  
Bumping like a truck  
Ain't that what you want?
