

# Speed of Darkness

## Flogging Molly

Bury me in silence  
For I'll never hear the truth  
My coffin will be empty  
Cause you'll never steal my youth I was born to live beside you  
But you tried to stop me grow  
Now I'm living on the run  
From all this hatred you now love  
Who said it only rains  
From the heavens above [Chorus]  
The speed of darkness lights our way  
We set our course for America  
No bitterness will bite my tongue  
The speed of darkness has begun  
It's something of a pity  
But you'll never understand  
How a boy can grow and  
Still never be a man I would trade the sun for nothing  
And the glancing of a star  
If you could just remember  
Grains of dust is all we are  
It only takes a second  
For a beat to kill a heart [Chorus]  
The speed of darkness lights our way  
We set our course for America  
No bitterness will bite this tongue  
I've reconciled with all that's gone  
The speed of darkness has begun  
Only time and life will tell  
But it's a long way home when you're in hell  
Where constant demons fracture souls  
Once a nightmare, now just lifeless ghosts The speed of darkness lights our way You tore this  
land asunder  
But my pride will bring it back I would trade the sun for nothing  
And the glancing of a star  
If you could just remember  
Grains of dust is all we are  
It only takes a second  
For beat to kill a heart [Chorus]
