

Paradise (Richie Santana Club Mix)

Kaci

Could it be the little things you do to me
Feelings that i'm feeling are so new to me
I'm going through so many changes
Life is meant for the touch of strangers
How my heart goes crazy, when you look at meAaahhhWhen I'm with you its paradise
No place on earth could be so nice
Through the crystal waterfall I hear you call
Just take my hand its paradise
You kiss me once I'll kiss you twice
And as I gaze into your eyes, i realize its paradise
Ooohhh yea
Now I know the sweetest dreams can all come true
Cuz I found heaven here on earth when I found you
Its nothing I could ever make up
How I hope I never wake up
Just to find this isn't true realityWhen I'm with you its paradise
No place on earth could be so nice
Through the crystal waterfall
I hear you call
Just take my hand its paradise
You kiss me once I'll kiss you twice
And as i gaze into your eyes, I realize its paradise
Ooohhh
The world around us disappears without a trace
Telling me that I have found the perfect place
Let us stay this way forever
Deep in love and may I never
Spend another day without you close to me
Ohhh Paradise
Yea yea yea yea yea yea
OhhhhhhhJust take my hand its paradise
You kiss me once I'll kiss you twice
And as I gaze into your eyes I realize its paradiseJust take my hand its paradise
You kiss me once I'll kiss you twice
And as I gaze into your eyes I realize its paradiseAs I gaze into your eyes I realize its paradise
oooh yea paradise
oh (its paradise)
ohhh
