

Searching

Knox Brown

[Verse 1]

It's feeling like it's easier said than done
It's funny you can live by the book and still die by the gun, yeah
And you want everything, when everything ain't guaranteed
Like tomorrow's eve, in the middle like Malcolm is
On X like Malcolm was, oh no, you've got a mind of your own
You ain't gotta do what's been done, it's been done
Gunpowder, gunpowder is all I smell in the air
Must be something in the water that's that's got us [?] women, drivin' really tryna stay clear
I know you wanna look, look, but don't touch

[Refrain]

Look, look, but don't touch
What you're looking for?
Tell me what you're looking for
I know you wanna look, look, but don't touch
Look, look, but don't touch
What you're looking for?
Tell me what you're looking for
Tell me when you find it

[Chorus]

I've been searching for that same thing same thing
And I've been searching for a long, long while
I've been searching for that same thing, same thing
I've been searching for a long, long while

[Verse 2]

Searching for better, that's why beats used to be 50 and studio was 10 an hour
We are searching for better
If you can hear me now, Mr. Brown I don't hate ya
Searching for better, don't pass judgement dawg I understand it's human nature
Searching for better, that's like momma when she moved to the UK and set up
I never thanked you for that keyboard
Momma thank you for your love, and all of your hugs
'Cause I swore I would of probably ended up in the wrong crowd
Gunpowder, gunpowder is all we smell in the air
Lord, no
Must be something in the water that's that's got us [?] women, drivin' really tryna stay clear

Lord, no

[Refrain]

I know you wanna look, look but don't touch
Look, look but don't touch
What you're looking for?
Tell me what you're looking for
Tell me when you find it

[Verse 3]

When you find it you gon' be alright
You gon' be, alright (Alright)
There will be no more sleepless nights
You gon' be, alright (Alright)
You gon' be, alright (Alright)
Baby no more sleepless nights

[Refrain]

Look, look but don't touch
Look, look but don't touch
What you're looking for?
Tell me what you're looking for
Tell me when you find it

[Chorus]

I've been searching for that same thing same thing
And I've been searching for a long, long while
I've been searching for that same thing, same thing
I've been searching for a long, long while
