

# Man On a Wire

## Garbage

I looked into the mirror  
What did I see  
There was a big black beast  
Looking back at me You looked into my eyes  
What did you see  
You saw a big black beast  
Magnified in me Like a man on a wire  
I set myself on fire  
Destroyer of our dream  
Trying to find a spark  
Desperate for love  
Like a man on a wire  
I was like a volcano  
Just waiting to explode  
I helped it was a wreck there reborn  
And I've been transformed I was a green eyed monster  
Could you tell I was afraid  
I sat myself down and shot my fear in the face Like a man on a wire  
I set myself on fire  
Destroyer of our dream  
Trying to find a spark  
Desperate for love  
Like a man on a wire That's right  
Yeah, I see you sitting around  
With your wristwatch  
And your white collared shirt  
I see you hoping to watch me fail  
You're hoping to watch me fail  
I sat myself down and shot my fear in the face  
Like a man on a wire  
I set myself on fire  
Destroyer of our dream  
Trying to find a spark  
Desperate for love  
Like a man on a wire Like a man on a wire  
I set myself on fire  
Destroyer of our dream  
Trying to find a spark  
Desperate for love  
Like a man on a wire
