

Hang

Merk

[Verse 1]

Oh

Everything I wanna do

Is lie next to you

Cool

Shy melancholic girl

You could hang with me

We don't have to speak

[Chorus]

You can hang with me

We don't have to speak

You can hang with me

[Verse 2]

We don't like the world outside

Block it out

And stay inside

Cool

Shy melancholic girl

You could hang with me

We don't have to speak

[Chorus]

You can hang with me

We don't have to speak

You can hang with me

You can hang with me

We don't have to speak

You can hang with me

[Chorus]

You can hang with me

We don't have to speak

You can hang with me
