

Faith

Skip Marley

[Intro]

It's Kel P vibes

[Verse 1]

See I know that you know what you wanted

Still on the same page, but here we are

Chasing hope, in the hope we stay honest

Sometimes life can kick you when you're down

[Chorus]

But we got that, we got that faith

We got that, we got that stargazing in our eyes

We got that, we got that faith

We got that, we got that willingness to try

'Cause we got that, we got that faith

[Verse 2]

Here we go, here we go another problem

Didn't see this on? coming, but here we are?

Hold you close, hold me close, at the bottom

Sometimes life can kick you when you're down

[Chorus]

But we got that, we got that faith
We got that, we got that stargazing in our eyes
We got that, we got that faith
We got that, we got that willingness to try
'Cause we got that, we got that faith

[Bridge]

What we got?
We got that faith
We got that stargazing (Fire in your soul I said)
We got that faith
We got that stargazing

[Chorus]

But we got that, we got that faith
We got that, we got that stargazing in our eyes
We got that, we got that faith
We got that, we got that willingness to try
'Cause we got that, we got that faith

[Outro]

Keep moving and make your way
Making our own history
We dance in that one whole

We are the star again

Hold you close, hold me close, at the bottom

Sometimes life can kick you when you're down
