

Stir It Up

Eric Benét

To feel good
We were switching,
We were switching up some time, babe.
Hey, oh!
Hey, I got a stupid hot girl,
Hey oh, oh!

It's feeling like it's been too long since we had a good time,
We've been talking about what's wrong,
Stir up what's been going right,
Every day the same all same,
Girl we need to stir it up!
Yeah!
I think it's time we had a change,
A little switch in luck.
And maybe we could find a spot or two for me and you!
Just you and me!
There ain't no problems on the dancing floor,
So let's hit the door!
That's all we need!
Girl you know I love to see you smile,
It drives me wild!
I know what you like, boy!
Life is only for the living,
So let's live it tonight!

[Chorus:]
Start stirring it up,
And you can take another look at me,
Start mixing it up,
A little change in the scenery!
Mix it up, girl!
Start stirring it up,
Cause we've been living in the days too long!
Start stir it up as the night comes!

I think I know what's on down town,
We've never been before.
And when it starts to winding down,
Hit it after set it for!
And maybe we could take a carriage ride
Underneath the city lights,
And girl we've been doing some in Rome,

Let's find a way and do it all right!
I propose a toast or two, for me and you!
It should glide us both.
For always making a little time for fun,
In the years that come.
Keep it... yeah!
Girl, we've got to switch it up some time,
To make it right,
If I'm gonna be the only one for the rest of your life.
Yeah!

[Chorus:]
Start stirring it up,
And you can take another look at me,
Stir it up, baby!
Start mixing it up,
A little change in the scenery!
Mix it up, girl!
Start stirring it up,
Cause we've been living in the days too long!
Start stirring it up as the night goes on!
Start stirring it up,
So we could see what's going down!
See what's going down!
Start living it up,
A little bit and take a look around!
Start shaking it up
And maybe we could find a spot or two!
Shake it, baby!
Start stirring it for the night is true!

When you get close to me,
I feel like picking a night of love!
When you get close to me,
Stir it up, baby!

[Chorus:]
Start stirring it up,
And you can take another look at me,
At me!
Start mixing it up,
A little change in the scenery!
Scenery!
Start stirring it up,
Cause we've been living in the days too long!
Too long!
Start stirring it up as the night goes on!
So we could see what's going down!
See what's going down!

Start living it up,
A little bit and take a look around!
Start shaking it up
And maybe we could find a spot or two!
Shake it, baby!
Start stirring it up for the night is true!

When you get close to me,
I feel like picking a night of love!
When you get close to me,
Stir it up, baby!
