

When You Like Me

Chris Janson

You got every right right now to be ticked off
I wanna make it all alright at any cost
Right now between you shaking off that sass
Should we take a break is that too much to ask? Baby just love me like you loved me when you
liked me
Pretend you don't wanna cut me off to spite me
I'm so turned on another way you wanna fight me
So baby love me like you loved me when you liked me Something bout your hand there on your
head
And your finger pointing biting on your lip
You're a different kind of hotter when your face is red
It kinda makes me wanna find a bed
Baby just love me like you loved me when you liked me
Pretend you don't want cut me off to spite me
I'm so turned on another way you wanna fight me
So baby love me like you loved me when you liked me Pretend I ain't done nothing wrong
Pretend I hung the moon
Girl if your shoe was on the other foot
I'd do the same for you
Baby just love me like you loved me when you liked me
Pretend you don't wanna cut me off to spite me
I'm so turned on another way you wanna fight me
So baby love me like you loved me
Love me like you want me
Love me like you loved me when you liked me Oh, when you liked me
