

The Bay

Metronomy

[Verse 1]

You may have the money but you've got to go
It's sensible, it's sensible
And those endless seasons that go on and on
Incredible

[Pre-Chorus]

But I'd sooner get out, remember where we went last year?
You said everything about it moved on your career
If you want to go, I'll take you back one day
'Cause this isn't Paris, and this isn't London
And it's not Berlin, and it's not Hong Kong, not Tokyo
If you want to go, I'll take you back one day

[Chorus]

It feels so good
In the bay
It feels so good
In the bay

[Verse 2]

You may have the body but do you have the soul?
Let's make this happen, let's make this happen
And those endless beaches that go on and on
It's magical

[Pre-Chorus]

But I'd sooner get out, remember where we went last year?
You said everything about it moved on your career
And you said, "If you want to go, I'll take you back one day"
'Cause this isn't Paris, and this isn't London
And it's not Berlin, and it's not Hong Kong, not Tokyo
If you want to go, I'll take you back one day

[Chorus]

It feels so good
In the bay
It feels so good

In the bay
