

# Deeper Than Rap

J Hus

I don't wanna make friends, I don't wanna break the ice

I think about my life and I analyze

The gun man was aimin' at me but he wasn't precise

I look down the barrel of the gun and saw paradise

They don't wanna see us win, they wanna sabotage

The next time they see me in the flesh, I be camouflage

Heard the man talk greasy, he's thinkin' he's hard

'Til I catch him lackin' there with your Nicki Minaj

I'ma keep the next thing in my cousin's garage

Jakes won't find shit if they run in my yard

How you live you life when your life's a facade?

How many time did I lie to my marge?

I wasn't even rollin' with the entourage

I'm takin' my time when I'm playin' my cards

You know them niggas always gon' try to catch me off guard

They think I'm talkin' to myself but I'm talkin' to God

I know my skin look fresh but I come from the mud

I was in a bad mood until I smoked in a bud

Handle your business, don't brush it under the rug

You wasted my time and I felt like I was robbed

All I need is some mash and a corn on a cob

I was chillin' with Chanel but I called her a cab

I'm so on my job that I sleep in the lab  
You think I'll go without a fight but I think that you're mad  
I knew they was comin' so I sat and waited  
They try to burst through the door but it was barricaded  
I wasn't lost in the sauce but I was marinated  
We looked at the stars and then we navigated  
We started thinkin' as one then we elevated  
We never said the word, we just demonstrate it  
No blacks, no dogs, we were segregated  
They took our history then they went and erased it  
I'm just a roadman so why am I preachin'?  
God made you sexy, so why you bleachin'?  
How you send your son to school and don't know what they teach him?  
How you be finesse block and you don't know the reason?  
Me I love myself 'cause I'm black and I'm gorgeous  
Why they wanna kill us for natural resources?  
Every move that you make, you have to be cautious  
I work with the powers, I work with the forces  
And the Almighty gets all the praise  
I make my salah 'cause I'm stuck in the maze  
I saw a sister and I lowered my gaze  
I had to lay low for a couple of days  
I'm still with the mob but I chill on my G's  
Be careful your drink don't get spilled on my J's  
The way I left your block in disarray

Don't do as I do, just do as I say  
Spark a Dutchie, I'm in my element  
Provide for the family, pay the rent  
Tell you what I stand for, what I represent  
I heard what you said but I know what you meant  
I read between the lines when you told me things  
I'm from the road so you don't think I'm intelligent  
I had to fill up the candy with some medicine  
I'm made from carbon, they call it melanin  
The way I tell you everything, I was genuine  
You had a red eye, that's why you never win  
I won't even say a word, I just pepper him  
How can a man judge me, like he never sinned?  
Lookin' for your soul it got blown in the wind  
You seen this paperwork and you rollin' within  
I wanna fix the world, don't know where to begin  
They ain't see me in so long, they like, "Where have you been?"  
I was fresh from a war but it was internal  
Every day I encounter another hurdle  
Why they wanna take my manhood and strip search me?  
When I think about my life, it's been a long journey  
It was a snow storm but I stood firmly  
All the time you wasted, you gotta reimburse me  
I had to play dumb, just to blend in

Then go to Africa for spiritual cleansing
