

Rise & Fall (feat. Cathrine Lassen)

[Mike Perry](#)

You are beautiful in every way
I know you'll light up the world someday
Yeah, that's what my mama used to say
Those words, they keep coming back to me Yeah, we're never gonna slow down
As long as we're on our own now
And I don't care if we're so low
We rise and fall together
We keep chasing new highs
Staying up till the sunrise
And if we would lose sight We rise and fall together
We rise and fall together
We rise and fall together
And our life has taught me to be strong
And nothing's gonna bring me down, oh no, no, no
Yeah, I failed only for so long
But now I, I've got someone to lean on
Yeah, we are slowly on our way
Reaching for a higher stage
No body can take our place Yeah, we're never gonna slow down
As long as we're on our own now
And I don't care if we're so low
We rise and fall together
We keep chasing new highs
Staying up till the sunrise
And if we would lose sight We rise and fall together
We rise and fall together
Yeah, we're never gonna slow down
As long as we're on our own now
And I don't care if we're so low
We rise and fall together
We keep chasing new highs
Staying up till the sunrise
And if we would lose sight
We rise and fall together
