

# Four Walls

## Broods

[Verse 1]

You walked in said I've got some news:  
I didn't say all I wanted to  
You know I told you that I wasn't scared, well I lied  
You told me babe, I only think of you  
And I said all I got is a bunch of sad stories  
And I told them all before the night was through  
And we cried (oh) but we're here now  
And I'm trying hard to make you love me  
But I don't wanna try too hard  
And I'm trying hard to take it lightly  
But we're here now

[Chorus]

Those four walls now are the only place that I can breathe out  
And those four walls now are home  
And those four walls now are the only place that I can feel  
And those four walls now are home

[Verse 2]

I wanna make you feel how I feel when I'm listening to love songs  
I wanna take you to the peak of everything that you are  
You're everything I need tonight  
And I'm trying hard to make you want me  
But I don't wanna try too hard  
I was thinking you got what you came for  
But you're here now

[Chorus]

Those four walls now are the only place that I can breathe out  
And those four walls now are home  
And those four walls now are the only place that I can feel  
And those four walls now are home

[Bridge]

Falling at the hand of a perfect man  
Falling at the hand of a perfect man

[Chorus - Variation]

Those four walls now are the only place that I can breathe out

And those four walls now are home  
And those three words now are the only thing that came to save me  
And those three words now are home

[Outro]  
Falling at the hand of a perfect man
