

So Fine

Mint Condition

Such a beautiful lady
The kind you find in a dream
And dreams are so real for me With eyes so warm and soothing
They put me in a trance
And I imagine us by the warm cozy fireplace The light shines on your face
Your smile gets me higher and higher
My heart starts to race I gotta say what I feel
Cause girl you look so good to me Chorus: So fine lady
So fine you sway me
So fine lady
So fine you sway me
Verse: Can't believe my eyes
Take me for a ride
Such a woman of quality
Your body's so supreme
When you dance you sway so elegantly Girl you simply dazzle me
You put me in a trance
And I imagine you and me
Just kissin away My fingers in your hair
Your embrace holds tighter and tighter
Your touch makes me say I gotta stop to look
Cause girl you look so damn good to me
Chorus Guitar solo Chorus Adlib til the end of song
