

# Summer Love

## Rudimental & Rita Ora

[Verse 1]

I like the way you leave me with a taste of my tongue  
I like the way you whisper when you tell me you love me  
I swear that I can give you every breath in my lungs, yeah  
As long as you can promise that you'll be here to hold me[Pre-Chorus]

No, I can't wait to fall into this web you've spun  
No, I don't wanna get back up, just keep me now[Chorus]

Summer, summer love, keep me high

I'm all alone. won't ya stay a while

Summer love, by my side

We can rule the world, just you and I

Summer love, by my side

We can rule the world, just you and I[Hook]

Kiss me now (kiss me now, yeah)

Summer love, by my side

We can rule the world, just you and I

Summer love, by my side

We can rule the world, just you and I

[Chorus]

Summer love, by my side

We can rule the world, just you and I (you and I)

Summer love (summer love), by my side

We can rule the world (rule the world), just you and I

Summer love, just you and I

Summer love, just you and I

Summer love, just you and I

Summer love, just you and I Summer love, by my side

We can rule the world, just you and I
