

Said

Nasty C & Runtown

Up with the weights, I work (work, work)
Down with the pack, I roll (I roll, roll)
Now up with the sack and you know that I deserve it
Half and half when we split the purse, yeah
The preacher man said:
"Please remember that your savior's on the way"
I still remember when the teacher man said:
"I wouldn't make it", but I made it anyway
I remember said it wasn't easy
Right now everything is amazing
Steady driving dem loco
Them are taking my photo
I remember that they telling me no, no
Right now everything is global
Steady driving dem loco
Them are taking my photo
Now I put the labour in full effect
I keep the prayers in motion, ain't no pulling back
I was boxed in, all the boxes that I couldn't check
And God came through for me would you look at that
Now I'm building a legacy outta hobby
I never chased the dream, I designed it
Big crib, you hear the echo in the lobby
Boy I was broke as hell when they found me
Hell is where they found me
I'm past it, I made it, facts
My haters all plastic, fake in fact
My family is all happy, I'm grateful, thanks
And all the things I say are all naked, facts
I hope I get to meet up with my mother when I'm gone
Just to talk about my life and all the hurdles that I've won
I ain't saying it was flawless
'Cause sometimes I got it wrong
I had nobody to talk to so I said it in the song all I do is gone
Up with the weights, I work (work, work)
Down with the pack, I roll (I roll, roll)
Now up with the sack and you know that I deserve it
Half and half when we split the purse, yeah
The preacher man said:
"Please remember that your savior's on the way"
I still remember when the teacher man said: "I wouldn't make it", but I made it anyway
I remember said it wasn't easy
Right now everything is amazing
Steady driving 'em loco
Them are taking my photo

I remember that they telling me no, no Right now everyting is global
 Steady driving 'em loco
 Them are taking my photo In the Winter in the Summer
 Chart topper, money maker, we no bother
 Everyday we pray for long life
