Baby when I think about you  
All I want to do is be by your side  
Take a little ride Baby you know I thought about you  
All I want to do is take a little ride  
Maybe get inside Mama told me boy someday a girl will take your mind  
And then you'll know  
I never knew but I do now  
I never knew but I do now  
I love you love you love you love you love you  
You you you you you  
Mama told me boy someday that girl will take your mind  
And then you'll know  
I never knew but I do now  
I never knew but I do now  
I love you love you love you love you  
You you you you you you you Soft as my fingers  
Dirty pick pocket  
I can still taste you  
And I won't wash my hands Red is the color of the sun with my eyes closed  
I can still taste you  
And I will again Woman please please I'm in your possession  
Drink it drink it drink it drink it  
Let me go let me go  
Let me go down down down down down down down  
Dark little place she digs to go  
Dark little place she digs to go  
Dark little place she digs to go  
Dark little place she digs to go CHORUS Woman please I am your possession  
And you are my obsession  
Whatcha gonna do now CHORUS Red is the color of the sun with my eyes closed  
I can still taste you  
I will again
