

# Gabrielle

Brett Eldredge

I was caught up in your brown eyes  
Looking up at the blue skies  
Really made me realize They don't make 'em quite like you  
Cinnamon skin in the sunshine  
Stop time in the moonlight  
Really made me feel like  
Like I could fall for you Then one day you were just gone  
And I've been wondering for so long Oh was it your heart or mine?  
Was it just the wrong time?  
Gabrielle  
We never got very far  
But girl wherever you are  
I wish you well  
Gabrielle  
You were picking flowers on a side road  
Leaning back on a fence post  
Couldn't help but notice  
You were wanting something more  
I was staring off in the distance  
Blinked twice and I missed it  
Can we just rewind it like it was before? And I woke up and you were gone  
And I've been wondering for so long Oh was it your heart or mine?  
Was it just the wrong time?  
Gabrielle  
We never got very far  
But girl wherever you are  
I wish you well  
Oh! Gabrielle  
And the miles they fly by  
Till you land back home again  
And do you ever wonder  
What we might have been? I can still see you standing there  
Sun shining behind your dress  
Your silhouette  
Hum! So perfect  
Take me back there  
Take me back there Oh was it your heart or mine?  
Was it just the wrong time?  
Gabrielle  
We never got very far  
But girl wherever you are  
I wish you well

Oh! Gabrielle Oh! Gabrielle  
Was it just the wrong time?  
Gabrielle
