

Serious Times

Gyptian

So I say, these are some serious times
All I can see around us is just violence and crime
Full time for us to centralize, socialize and realize
To let the sun shine throughout everydayLet the moon shine through the peaceful night
This seven time rise, seven times fall
But I don't really believe in those falling things at all'Cause life continues as it goes
If you really want to know the truth
The truth is in being toldSo I say, these are some serious times
All I can see around us is just violence and crime
Full time for us to centralize, socialize and realize
To let the sun shine throughout everyday
Let the moon shine through the peaceful night
This seven time rise, seven times fall
But I don't really believe in those falling things at all'Cause life continues as it goes
If you really want to know the truth
The truth is in being toldSome time I think it's peace and safety
It could be yah for sudden destruction
Seh yeh wake up dis morning, ya gotta give tunkzYeh don't know if you're gonna live to see
tomorrow
Life is much more precious than gold
Yeah, yeah, and if the truth hasn't been toldSo I say that these are some serious times
All I can see around us is just violence and crime
Full time for us to centralize, socialize and realize
See all the corner, watch how you a hang out pon the corner
A straight-time pharmacy agwann pon di corna
On di corna, the yutes dem really nah hold no water
A stray them go stray and left the border'Cause a domino them say them gone
Now they can play
And a car come in and shots start to spray
Only innocent life can get taken awaySo I say, these are some serious times
All I can see around us is just violence and crime
Full time for us to centralize, socialize and realize
To let the sun shine throughout everydayLet the moon shine through the peaceful night
This seven time rise, seven times fall
But I don't really believe in those falling things at all'Cause life continues as it goes
If you really want to know the truth
The truth is in being toldSome time I think it's peace and safety
It could be yah for sudden destruction
Seh yeh wake up dis morning, yeh gotta give thanksYeh don't know if you're gonna live to see
tomorrow
Life is much more precious than gold
Yeah, yeah, and if the truth hasn't been toldSo I say, these are some serious times

All I can see around us is just violence and crime
Full time for us to centralize, socialize and realize
To let the sun shine throughout everyday Let the moon shine through the peaceful night
This seven time rise, seven times fall
But I don't really believe in those falling things at all 'Cause life continues as it goes
If you really want to know the truth
The truth is in being told
