Mercy

Brett Young

Mercy

Why you gotta show up lookin so good just to hurt me Why you wanna stop this whole damn world from turning Mercy

Why you hanging on so tight if this ain't working
Why you wanna stop this flame if it's still burning
Cause it's still burningSo if you're gonna break my heart, just break it
And if you're gonna take your shot, then take it

Take it

If you made up your mind, then make it

Make this fast

If you ever loved me

Have mercy

If you go out tonight and get drunk and lonely

Wind up home alone Please don't call me And say you miss me

NoSo if you're gonna break my heart, just break it And if you're gonna take your shot, then take it

Take it

If you made up your mind, then make it

Make this fast

If you ever loved me

Have mercyWoah

Oh have mercy

If you're gonna break my heart, just break it
If you're gonna take your shot, take it
Take it

Oh if you're gonna break my heart, just break it And if you're gonna take your shot, then take it Take it

If you made up your mind, then make it

Make this fast

If you ever loved me

Mmmh if you ever loved me

Have mercy

Oh have mercy

Oh have mercy

Have mercy
