

Live Forever

Little Big Town

You roll through life like a rolling fire
I bring the rain like a thunderstorm
Yeah we found peace on a battlefield
It all makes sense in love and war
It all makes sense in love and war

[Chorus]
You and me
Wild as a willow in a hurricane
Strong enough to stand in stormy weather
We might be
Crazy enough to make history
Cause the world just isn't the same since we got together
And if we don't die young, we might just live forever

There are kings and queens upon their thrones
That have a love like you and me
Kingdoms rise and kingdoms fall
But love is last eternally
But love is last eternally

[Chorus]
They might sing us in a song
Or write our names up in the sky
Even when it's carved in stone
A love like ours goes on and on
A love like ours goes on and on

[Chorus]
You roll through life like a rolling fire
I bring the rain like a thunderstorm...
