

After Midnight

Travis McCoy

Hey Hey)
After midnight we are out of control
We outta control
(Ooooh)
Let's go!
Cause after midnight
We let out the dogs
We outta control
(Yeah)
Let's go!The rock and roller awesome sort of freak show
We're gonna board them up and bleed the sore and just let go
So when the clock strikes midnight everyone lose control
And let the freaks come out tonight
The city nine to five
Man I hate this job
It's gonna be the end of me
(It's gonna be the end of me)
And since when did time
(And since when did time)
Become my biggest enemy?
(Become my biggest enemy)I don't think it's smart standing so close to me
(So close, so close you to close)
Because at 11: 59
I can feel it in my spine
Takin' over me
(I-I-I feel it, I feel it takin' over)
(Hey hey)
After midnight we're out of control
We outta control
(Ooooh)
Let's go!
Cause after midnight
We let out the dog
We outta control
(Yeah)
Let's go!The rock and roller awesome sort of freak show
We're gonna board them up and bleed the sore and just let go
So when the clock strikes midnight everyone lose control
And let the freaks come out tonightIt's midnight
It feels right
Everybody's acting up
If you're a freak be proud of it

You got it from your mother
And I have rather good manners
I just choose not to employ them
It's about that time for you to embrace your flaws and enjoy Them Everybody in the back
Bring your ass up to the front and
Nevermind the fuss because we do what we want
You feeling how I'm feeling
Put your hands up to the ceiling
And say "We don't need no blocks let them motherfuckers go! "After midnight we're out of
control
We outta control
(Ooooh)
Let's go!
Cause after midnight
We let out the dogs
We outta control
(Yeah)
Let's go! The rock and roller awesome sort of freak show
We're gonna board them up and bleed the sore and just let go
So when the clock strikes midnight everyone lose control
And let the freaks come out tonight I don't think it's smart standing so close to me
(After midnight)
(So close, so close)
Because at 11: 59
I can feel it in my spine
Taken over me
(After midnight)
I feel it taking over me I don't think it's smart standin' so close to me
After midnight
(So close, so close)
Because at 11: 59
I can feel it in my spine
Taken over me
(Yeah)(Hey hey!)
After midnight we are out of control
We outta control
(Ooooh)
Let's go!
Cause after midnight
We let out the dogs
We outta control
(Yeah)
Let's go!
The rock and roller awesome sort of freak show
We're gonna board them up and bleed the sore and just let go
So when the clock strikes midnight everyone lose control
And let the freaks come out tonight
And let the freaks come out tonight
And let the freaks come out tonight

After midnight we are out of control
We outta control
(Ooooh)
Let's go!
Cause after midnight
We let out
