

# The Circulatory System

## Just Like Vinyl

Tell all your friends  
you wont see them again  
once and for all every

Don't try to beg  
I can't sleep in your bed  
I've seen it before  
I've seen it again  
posing the door  
it's come to an end

Ouhohoh...Do...Ouhohoh...you  
take these birds at high  
Ouhohoh...Shall...Ouhohoh...expectations  
come and met this side  
Ouhohoh...of you...Ouhohoh...I'm never see  
We've never seen  
Ouhohoh...Oh we...Ouhohoh...can never bane now

Tell all your friends  
you wont be needing them  
So ride it off  
you said too much  
now it's the perfect mistake  
So ride it off  
you said too much

So long I'm off to find my place  
Whatever you wanted whatever you say  
So one I'm lost I'll find my way  
Whatever you wanted whatever you say

So long I'm off to find my place  
Whatever you wanted whatever you say  
So one I'm lost I'll find my way  
Whatever you wanted whatever you say

So long I'm off to find my place  
Whatever you wanted whatever you say  
So one I'm lost I'll find my way

Whatever you wanted whatever you say
