i like the line between your belly and your thighs

(rolling on rolling on)

the smell of your hair the sparkle in your eyes

(rolling on rolling on)

smoke on your breath breathing hot and heavy back of

your neck shining on the chevy the moon was so big when

i drove it to the levy girl

(rolling on rolling on)

i found blood and i saw stars

all in the backseat of your car

and i told you it was love but you wont know the truth

im a young man in my prime but my hearts still filled

with fear

and it goes on clear

the clean dreams sexy limousine

jasons got the energy used to be a coke fiend

skinny brown arms coming out of your shirt

heart is in the right place brain is in the dirt

you live life like everyones an enemy

i found blood and i saw stars

all in the backseat of your car

and i told you it was love but you wont know the truth

im a young man in my prime but my hearts still filled

with fear

and it goes on clear

i found blood and i saw stars

all in the backseat of your car

and i told you it was love but you wont know the truth

im a young man in my prime thats right but my hearts

still filled with fear

and it goes on clear

and it goes on clear

and it goes on clear
