

# Lions in the Wild

## Martin Garrix & Third ? Party

Looking out for a new horizon  
Reaching out, I can almost see the place  
Holding on with a heart that's frozen  
In the dark, but I am not afraid  
No, I am not afraid We'll be free, but I don't know where we're going  
You and me, this is our life and we own it  
Like lions in the wild  
Like lions in the wild  
Like lions in the wild  
Looking out at the open skyline  
Reaching out, I can almost touch the place  
Where the lost ones find their freedom  
In the dark, but I am not afraid  
No, I am not afraid  
We'll be free, but I don't know where we're going  
You and me, this is our life and we own it  
Like lions in the wild  
Like lions in the wild  
Like lions in the wild  
Like lions in the wild Like lions in the wild
