

# Anything

SZA

Maybe I should kill my inhibition  
Maybe I'll be perfect in a new dimension  
Maybe I should pray a little harder  
Or work a little smarter  
This time baby promise I have learned my lesson ooh  
Down for the ride, down for the ride  
You could take me anywhere  
Do do do down for the ride, down for the ride  
You could take me anywhere  
I hope you will, I hope you will, I hope you will  
Keeping up is hard to do  
Even harder feeling heavy, steady chasing you  
Beep beep, why are you looking around, you lonely?  
I feel you coming down like honey  
Do do you even know I'm alive?  
Do do you even know I, I  
Maybe I should pray a little harder  
Or work a little smarter  
This time baby promise I have learned my lesson ooh  
Down for the ride, down for the ride  
You could take me anywhere  
Do do do down for the ride, down for the ride  
You could take me anywhere  
I hope you will, I hope you will, I hope you will  
Do do you even know I'm alive?  
Do do you even know I, I  
Do do you even know I'm alive?  
Do do you even know I, I  
Do do you even know I'm alive?  
Do do you even know I, I  
Do do you even know I'm alive?  
Do do you even know I, I  
Do do you even know I'm alive?  
Do do you even know I, I  
Do you know I'm alive?  
Do you even know?
