

Can U Get Wit It

Usher

Every time I look at U
There's so many things that I wanna do
I promise U when i'm ready
I'm gonna spend my whole life with U What is love is it steady
Cause I don't know what to do
So tell me girl if your ready
To do what we came to do One day we could be together
Cause U know that I wanna be down, baby
But right now we can all forget it
U know I gots to get around
I don't have much money, I can't buy a diamond ring
I'm not tryin' to be funny, but it's only a sexual thing Can U get wit it
It's like that
It's only a sexual thing
Can U get wit it
It's like that
Your gonna love the joy I bring Can U get wit it
It's like that
It's only a sexual thing
Can U get wit it
It's like that
Your gonna love the joy I bring Please forgive me cause I don't ever wanna rush U
I might sound a little hasty
But let's do what we came to do
Now, U know that time is really precious
And U wasted a lot of mine
I'm gonna have 2 keep on movin'
If you can't make up your mind, yeah
One day we could be together
Cause U know that I wannna be down
But righ now we can all forget it
Cause U know I gots to get around I don't have much money, I can't buy a diamond ring
I'm not tryin' to be funny, but it's only a sexual thing Can U get wit it
It's like that
It's only a sexual thing
Can U get wit it
It's like that
Your gonna love the joy I bring Chorus (to fade)
