

# Surrender

## Lionize

I just wanted to talk  
I feel your breath up against my neck  
And I never meant any harm  
We're on the floor, that's when I torn your dress

[Hook]  
Cause I knocked ten times, you didn't come to the door  
Drove past your house so many times the night before  
Tried to pretend you don't love me anymore  
Oh! I'll show you to surrender (Surrender)  
Surrender your love to me  
Surrender (Surrender)  
Surrender your love or you'll never be free of me

You said that it was just a kiss  
And all your friends are concerned your name is inked on my wrist  
And if you could get it through your head  
That I just can't stop till I hear you beg

[Hook]  
Never be free  
Never be free  
Never be free (You'll never)  
Never be free  
Never be free (You'll never)  
Never be free  
Never be free (And I swear)  
And I swear, you'll never be free of me

[Hook]  
Surrender (Surrender)  
Surrender your love to me  
Surrender (Surrender)  
Surrender your love or you'll never be free of me
