

# Life Goes On

Adam Calhoun

[Verse 1]

Scars and tattoos, got 'em head to toe

I was born to raise hell, 'til it's time to go

Never fear another man, never ran from a problem

Then my daddy wasn't there, momma didn't raise a coward

[Verse 2]

Weathered every storm, rain, sleet, hail, snow, hell no

No retreat, I don't eat, this is what I stand for

Stand up, man up, we can throw them hands

Even prison couldn't change me, I ain't scared to go back

That's a known fact, wanna scrap, face me if you do

Think you put me in my grave, well you a daisy if you do

And if you do, bad motherfucker, put that on my tombstone

But that'll be a cold day in hell, boy I'm too strong

Boots on, wanna see the bottom of 'em, say somethin'

Paid for us sinners, Lord knows everyday it's somethin'

Trials but I persevere, through hard work and drinkin' beer

So I ain't trying to hear that bullshit, bitch I'm workin' here

[Chorus]

It's been a long day and I ain't done yet

And all I know is come and get you some

I learned the hard way, I did it my way

But like they say, boy life goes on

It's been a long day and I ain't done yet

And all I know is come and get you some

I learned the hard way, I did it my way

But like they say, boy life goes on

[Verse 3]

On and on and on I'm gettin' up another mornin'

Another day, another dollar, work my hands off to the bone

Bartender pour another round, I'm just tryna ease the pain

'Fore I'm headed back home

[Verse 4]

Still got dirt all in my hands

Workin' hard trying to make it

What don't kill you make you stronger

If it don't then it'll break ya

Take you out like trash, just that fast

Life can put you on your ass

I'm cut from a different cloth

But you wouldn't know about that

[Verse 5]

(Boy)

They don't know shit about a hard life

(Boy)

They don't know shit about no hard times

(Boy)

Learn the hard way now I'm right or wrong

(Boy)

I guess it's like they say, boy life goes on

[Chorus]

It's been a long day and I ain't done yet

And all I know is come and get you some

I learned the hard way, I did it my way

But like they say, boy life goes on

It's been a long day and I ain't done yet

And all I know is come and get you some

I learned the hard way, I did it my way

But like they say, boy life goes on
