

Delight (feat. Octavia Rose)

[Jamie Berry](#)

Walking down the street
And you hear that happy beat
You can't help but walk your feet
Down all the way 'til they meet People laughing and dancing all night long
And through the flashing lights
See the band playing their own song
And you wanna see the world
Through different eyes just for tonight
And you're hoping that this night will never end
You'll surrender if you
Feel the music fold around you and pull you into the light
Feel how it takes away your strain and stress
And turns it into light just for tonight Walk your feet down Move to the beat if you can take it
Go ahead let your hands hit the ceiling
Move to the beat if you can't help it
It will control you and take you away just for tonight Just for tonight Walking down the street
And you hear that happy beat
You can't help but walk your feet
Down all the way 'til they meet
People laughing and dancing all night long
And then the flashing lights
See the band playing their own song
And we wanna see the world
Through different eyes just for tonight
And you're hoping that this night won't end
You'll surrender if you
Feel the music fold around you and pull you into the light
Feel how it takes away your strain and stress
And turns it into light just for tonight
Walk your feet down
