

# Colony of Birchmen

## Mastodon

This forest is growing faster than I can tell  
Cell structure eats away at a massive swell  
Seems however I'm a victim of circumstance  
Hunt for ogres and dwarves  
Lion slicer  
Run with death  
Run with death  
White faces coming closer with every step  
Earth envelopes taking breath without happenstance  
Carve my teeth out ripping through the sheep's head curse  
Hunter gatherer  
Ridden from the cave  
Run with death  
Run with death  
Gone away  
My heart's gone away  
Taking everything  
My heart's gone away  
Take it now  
Run with death  
Run with death  
Gone away  
My heart's gone away  
Taking everything  
My heart's gone away  
Take it now
