

# Tera-Fied

## Static-X

The beat... fleeting  
The beat... the joy  
The beat... fleeting  
The beat... joy  
The beat, the joy (whisper) Terminate, tera-fied  
Smash it up, draw the line  
Fuck it up, rev it up  
Modulate it, penetrate it  
You and me, me and you  
Everything, see it through Take it all away  
You make it motherfucking hard  
Put it in the slot  
Breathe it all in  
Take another hit  
Show me what you've got  
Rhythm in the head  
Hold the fucker in  
Never got enough  
Never got enough  
Loving you to death  
I put the trigger on hold Tera-fied  
Getting me higher  
Put it inside  
Set it on fire Stick it in, do it right  
Live to win, end the fight  
Bleeding out, all around  
Grab it as you come and shoot it  
Far as you can make it go  
Think of what it makes you do  
Take it all away  
Until you're harnessing the spark  
Put it in the slot  
Breathe it all in  
Take another hit  
Show me what you've got Rhythm in the head  
Hold the fucker in  
Never got enough  
Never got enough  
Loving you to death  
I put the trigger on hold Tera-fied  
Getting me higher  
Put it inside

Set it on firePut in the slot  
Breathe it all in  
Take another hit  
Show me what you've gotRhythm in the head  
Hold the fucker in  
Never got enough  
Never got enough  
Loving you to death  
I put the trigger on hold...Tera-fied  
Getting me higher  
Put it inside  
Set it on fireTera-fied  
Getting me higher  
Put it inside  
Set it on fire
