Deep River Woman (feat. Little Big Town)

Lionel Richie

Deep river woman
Lord I'm coming home to you
Deep river woman
Lord I know she's waiting
Just anticipating all my loveI spent a night in LA
Just another chance to see you
Just you and I
Wanted you to know
That my playing days are over
Cause all I do is think of you
The writing's on the wall
I've been out in the world
Yes, the fast life had me goingNow all that's changed
I finally make up my mind
About the one thing
I've been knowing
You're the only girl
I've ever crying for in this world
You kind of love is forever
It took me a long time to realize
That I've come so far
And end up going nowhere
Oh, girl, I need you by my side
