

That's What Love Can Do

Robin Thicke

Turn a boy into a good man
Make a queen feel like a princess
One kiss at the perfect moment Bruises start to heal That's what love can do
It's not what love will do
That's what love can do
Oh, I'll tell you what you do to me
Everyday I find something else that makes me believe
'Cause that's what love can do
Baby, that's what love can do
I know, babe
You are now the most important
You and I have built this fortress
One night, we could make it alright
There's no need to run That's what love can do
It's not what love can't do
That's what love can do
Oh, I'll tell you what you do to me
Everyday I find something else that makes me believe
'Cause that's what love can do
Baby, that's what love can do everyday When the morning comes
I see your eyes and feel the sun
I know I'm right where I belong
And you may not know until you grow
Who you are or what you know
Not everybody finds a love like us
That's what love can do
That's what love can do
That's what love can do
Oh, I'll tell you what you do to me
Everyday I find something else that makes me believe
'Cause that's what love can do
Baby, that's what love can do everyday
