

# Upset Stomach

## Chloe x Halle

[Man speaking]  
What's up babe?  
Say what's up babe?  
What's up lil mama?  
Lil mama wait  
You not gone talk to me?  
Wait, wait  
What's your sign?  
You look like a Aquarius  
What's your number?  
Let me guess, 10  
You not gone say nothing back?  
You not gone say thank you?  
[Intro: Chloe and Halle]  
You're causing me to have an upset stomach  
With the words that coming out your mouth  
Going coming out your mouth  
Upset stomach  
Up- up- up- upset stomach  
Up- up- up- up- up- up- stomach

[Verse 1: Chloe and (man)]  
Hush be quiet, I'm already not feeling well (huh)  
Peace be silent, so I can start feeling well (huh)  
I don't like hurting feelings  
But you're making me feel worse  
(What's up babe?)  
No offense, I'm just sick  
But you're making me feel worse  
Hush be quiet, I'm already not feeling well (huh-huh)

[Chorus: Chloe and Halle]  
You're causing me to have an upset stomach  
With the words that coming out your mouth  
Going coming out your mouth

You're causing me to have an upset stomach  
With the words that coming out your mouth  
Going coming out your mouth

[Verse 2: Chloe and (man)]  
Oh I promise, we'd be cool if I was feeling well (huh, huh, huh, huh)  
(I like the way them jeans look on you)  
But I'm not so, step back until I'm feeling well (huh, huh, huh-huh-huh-huh, huh)

(You not gone say hello?)  
You're the person I hang with when I don't feel like this (aaahh)  
(Alright)  
[?] but not when I'm like this  
Oh I promise we'd be cool if I was feeling well (huh, huh huh huh-huh, huh-huh)  
(You not gone say thank you?)

[Outro: Chloe and Halle]  
You're causing me to have an upset stomach  
With the words that coming out your mouth  
Going coming out your mouth

You're causing me to have an upset stomach  
With the words that coming out your mouth  
Going coming out your mouth

You're causing me to have an upset stomach (you're causing me)  
With the words that coming out your mouth (me, me)  
Going coming out your mouth

You're causing me to have an upset stomach  
With the words that coming out your mouth  
Going coming out your mouth  
(Just be quiet for one moment)
