

The Feast and the Famine

Foo Fighters

That night they were burning for truth
Down on the corner of forty and you
They took your soul and they took it for fouls
Now what's a poor man left to do
One heart now broken in two
Mother nature your summer is coming
Yesterday and today
Revolution on its wayHey man
It was The Feast and the Famine
Hey man
It was The Feast and the Famine
It was The Feast and the Famine
Feast and the Famine
Cross words with nothing to lose
----- news
Salvation not already
You look when I walk by
Still screaming till I die
You can't survive ----
Black heart with a deepen wound
-----by your trouble ---
Where is that VMA?Hey man
It was The Feast and the Famine
Hey man
It was The Feast and the Famine
It was The Feast and the Famine
Feast and the Famine
Hey-----
Hey man
We need----
And change would come
And change would come
Is it anybody there?
Anybody there?
Anybody there?
Anybody there?Hey man
It was The Feast and the Famine
Hey man
It was The Feast and the Famine
It was The Feast and the Famine
Feast and the FamineHey-----
Hey man

We need---
And change would come
And change would come
Is it anybody there?
Anybody there?
Anybody there?
Anybody there?
