

# This Is Country Music

## Brad Paisley

[Verse 1]

You're not supposed to say the word "cancer" in a song  
And telling folks Jesus is the answer can rub them wrong  
It is not hip to sing about tractors, trucks, little towns, and mama, yeah that might be true  
But this is country music and we do

[Verse 2]

Do you like to drink a cold one on the weekend and get a little loud  
Do you want to say I'm sorry or I love you but you don't know how?  
Do you wish somebody had the nerve to tell that stupid boss of yours  
To shove it next time he yells at you?  
Well this is country music and we do

[Bridge]

So turn it on, turn it up, and sing along  
This is real; this is your life in a song  
Yeah this is country music

[Verse 3]

Are you haunted by the echo of your mother on the phone  
Crying as she tells you that your brother is not coming home?  
And if there's anyone that still has pride and the memory of those  
That died defending the old red, white, and blue  
This is country music and we do

[Verse 4]

So turn it on, turn it up, and sing along  
This is real; this is your life in a song  
Just like a road that takes you home  
Yeah this is right where you belong  
This is country music  
This is country music  
He Stopped Loving Her Today  
Hello Darling
