

One More For the Road

The Brand New Heavies

It's way past the evening
And my mind's made up
I'll lose myself in
Inside this cup cuz
It's bittersweet time
As large as life
How did we get here?
And who decides?
It was hot for a minute
But here I am
Standing before you
Without a plan
So take some time for a minute
A last embrace
To match this sadness
That is on your face
Gimme just one more yeah for the road
Gimme just one more whoa for the road
For the road
Now we are
Face to face
Seems impossible
Though we know
It's all done
Why can't we let go?
Cuz this cannot carry on
But we just can't leave it alone no
We just can't leave it alone
See we just can't leave it alone no
We just can't leave it
Yeah I know I'm not helpin' in any way
But I was so clear
Before I saw your face
But here we are
A-my resistance is wearing thin
I can't help laughin' ah ha
At what a mess I'm in
Cuz we're so different
And we both know that is that
You can see how the odds are stacked

And you're no different
Cuz it's written on your face
Here it is the last embrace
Gimme just one more yeah for the road
Gimme just one more whoa for the road
For the road
Gimme just one more yeah for the road
Gimme just one more whoa for the road
For the road
Yeah
For the road
Yeah
For the road
Now we are
Face to face
Seems impossible
Though we know
It's all done
Why can't we let go?
Cuz this cannot carry on
But we just can't leave it alone no
We just can't leave it alone
See we just can't leave it alone no
We just can't leave it
But we just can't leave it alone no
We just can't leave it alone
See we just can't leave it alone no
We just can't leave it
