

It's Over

Just Like Vinyl

Step outside and see the clouds are trapped in the sky
If and when you waste your time
I'll be drifting out of range, flying with the planes
Miles and miles away from you
Even if I did it too

Lately, it's not everything that I had wanted it to be

Step outside and see the clouds are trapped in the sky
If and when you waste my precious time

Lately, it's not everything that I had wanted it to be
Sadly, it's a chapter that's been closed, even though I held you close

It's almost over now
It's almost over now
It's almost over now
It's almost over now

It's almost over now
It's almost over now
It's almost over now
It's almost over
