

# After Ever After 2

Jon Cozart

If you've ever wondered why  
Disney tales all end in lies  
Here's what happened after all their dreams came trueMulan  
After saving China I went home alone  
I was feeling conflicts in my lower zone  
I've been dressing like a guy for months  
Now I'm losing all control  
I think I am a guy in my soul  
I wanna be a man  
Soldier 1: I've never seen a guy so hot  
Mulan: Time to reinvent the new me  
Soldier 2: Every time he speaks it makes me want to sing (I'm so confused)  
Soldier 1: Be quiet, or we'll get caught  
Soldier 3: Maybe one day he'll screw me  
M: Now I really get why my nickname is Ping  
I've gotta be a man  
I've got the brains and the bite of females  
Plus the brute and the brawn of dudes  
I know I'm ready for transformation  
It's time to replace all these useless tubes(Good for you)  
Cinderella  
The prince was absolutely the only single wish my heart made  
Guess my wish came true  
But we never really talked much  
Before he discovered my shoe  
The night after we got married  
I recounted all of my plights  
Of how I fit inside a pumpkin  
My canines turned to coachmen  
Prince threw me in Bedlam that night  
The white jackets say I'm nutty (she's nutty as a bat)  
Cause my clothes are sewn by rats (put some meds in her food)  
But their pills turn my brain to putty (blarg)  
Now Lucifer's not just my cat (I AM SATAN)  
Their insulin puts me under  
Shock therapy's made me insane  
And after years of steady frying  
The doctors gave up trying  
They stuck 2 steel rods in my brainTiana  
I spent a bloomin lifetime  
To open my cafe  
Then I took a dive in 2005

Now it's washed away (it's all washed away)  
I was picked up by a chopper  
After four nights on my roof  
Now my new home is the Astrodome  
Cause New Orleans ain't Katrina proof  
Ya better carry 'round a shotgun  
Or looters take your kids  
Ya better pee inside of jam jars  
Be sure to keep those lids (ew)  
We needed Noah but we got Bush  
Our "savior" flew away and hid  
Rough seas and levees  
Rough seas and levees, I'm dead  
Elsa  
There is no snow on the mountain tonight  
Just sulfur in the air  
A kingdom of greenhouse gases  
Only Bill Nye seems to care  
My town is melting, breaking off into the sea  
It's time I show the strength of an evil queen  
With Germany and Putin, too  
I'll free the penguins and throw you in a zoo  
We're going green by spilling red  
And if you're not dead  
I built a hoard of evil snowmen  
We're gonna take over the world  
Let it snow, let it snow  
Now Fox News will need heat lamps  
Let it snow, let it snow  
I hope you concentrate in camp (Heil Elsa)  
We don't care who we have to slay  
Let my troops march on  
The cold's coming back and it's here to stay  
Tiana: I sunk like a brick  
Cinderella: Prince thinks I'm sick  
Elsa: Ice is melting quick  
Mulan: Now I have a lot of self esteem
