

# In Search Of

Miike Snow

Yes, I've been living long enough to be  
Forgiven  
For the bones I broke I had to make  
A living (a living) But we won't back down from anything  
In search of a remedy  
No we won't back down from anything  
In search of a remedy Father put his foot down on my games  
Forever  
So in the marketplace I stay calm  
And clever And we won't back down from anything  
In search of a remedy  
No we won't back down from anything  
In search of a remedy
