

Flash Out

JayDaYoungan

Spazz out, they gon' make a nigga crash out

Pussy shit, that's what make a nigga flash out

Bag talk, a brand new body I can cash out

Pull up, (Yeah, yeah) Then he smashed out

Keep a gun, just in case they try to act out

Don't try to run, shots from behind you assed out

Talkin' shit, so pussy bitch you on your ass now

We really clappin', don't get caught lackin' with your pants down

Why the fuck you actin', bitch come get at me, I won't stand down

I been a savage, catch you in traffic, you get ran down

We trigger happy, you target practice put your hands down

We like to walk down, we got the dropper on you laying down

Bitch you gone try who? Your stupid dumbass gone die soon

We finna slide thru, stepping on whoever by you

They won't know who shot you, they just gone know somebody popped you

Bitch you gone drop who? I got some big shit that's gone stop you

Stop fuckin' around with these bitch ass niggas, man

We got Dracos, AR's, Glock's, we got everything that gon' make your fucking heart stop

I'm tryna put him on the news and make him shut up

Tryna up the score, take a soul and tell em' catch up

He fat mouthin', he gone leave on a stretcher

Blow his back out, and now I'ma have to get him checked up

We slang iron, they know I ain't lying

Bitch you can die tryin'

They took mines, I pulled up and came back, and got mines

We gun firing, I leave everything in my punchlines

Bitch don't play wrong, know I'ma only say this shit one time

(I'm tryna put him on the news and make em shut up, news make em shut up

I ain't tryna fight pussy nigga put your guns up, bang!

I'm tryna put him on the news and make him shhh... and make him shut up!)
